

June 2023 – QUARTERLY ACTIVITIES REPORT

*Mined ounces increased 49% quarter on quarter to 16.7koz
Riverina Underground on schedule with 265 metres advanced
40% increase in FY24 production guidance to 67koz - 73koz, and 25%
reduction in AISC cost to \$2,200/oz - \$2,400/oz*

Highlights for the three months to 30 June 2023 include:

- No Lost Time Injuries in the quarter resulting in an LTIFR of zero for FY23.
 - Quarter ended with \$24.7 million in cash, with a further \$9.0 million to be received following completion of the sale process for Lady Ida¹, expected around mid-August.
 - Missouri open pit mined over 229kt for ~16.7koz in the June quarter. This was a record mined ounces from Missouri, and a 49% increase in ounces mined from the prior quarter.
 - Mined grade was 2.3g/t, with improved practices continuing to deliver higher quality ore, noting H2 mined grade was 42% higher than H1, at 2.4g/t.
 - The extended crusher circuit downtime in June negatively impacted gold produced for the quarter, which has since been rectified with the circuit back in operation in early July².
 - Gold produced for the quarter totalled 12,190oz, which is consistent with previous quarters despite extended crusher circuit downtime.
 - Gold sold for the quarter totalled 12,050oz and 49,928oz for FY23.
 - As at 30 June 2023 mined ore stockpiles totalled 92.6kt at 2.2g/t for 6.4koz, driven by an increase in mined ounces and delays to processing.
 - Leading underground mining contractor Byrncut Australia mobilised for underground works at Riverina Underground. Mining commenced in May with a total of 265 metres completed since Riverina portal was established, in line with forecast.
 - Investment of \$9.8 million during the quarter in exploration, resource definition drilling and advancing Riverina Underground.
 - FY24 production guidance is 67koz to 73koz at an AISC of \$2,200/oz to \$2,400/oz. FY24 guidance benefits from reduced stripping ratios in Missouri and higher grade ore presenting from Riverina Underground in H2.

Ora Banda Mining Limited (ASX: OBM) ("**Ora Banda**" or the "**Company**") is pleased to report on its activities for the June 2023 quarter - a period which saw the Company continue to deliver against its DRIVE to 100 Project strategy via the commencement of the high-grade Riverina Underground mine, which is expected to underpin the growth of Ora Banda's production profile to more than 100koz per annum by FY25.

During the quarter, the Company sold 12,050 ounces at an AISC of \$3,107/oz. The AISC and net cashflow was affected by low crushing circuit availability and a bearing failure in late June on the secondary crusher, resulting in actual ounces for the quarter being ~14% (2koz) lower than stated guidance of 14koz⁵. The crushing circuit became fully operational in early July. As previously announced, further crusher upgrades in FY24 will assist the crushing circuit no longer being a processing bottleneck.

During the period Ora Banda received shareholder approval to complete various transactions that provide up to \$44.2 million (see further details in Financing section) to support the development of Riverina Underground and ongoing exploration on its leases^{3,4}.

Project Report

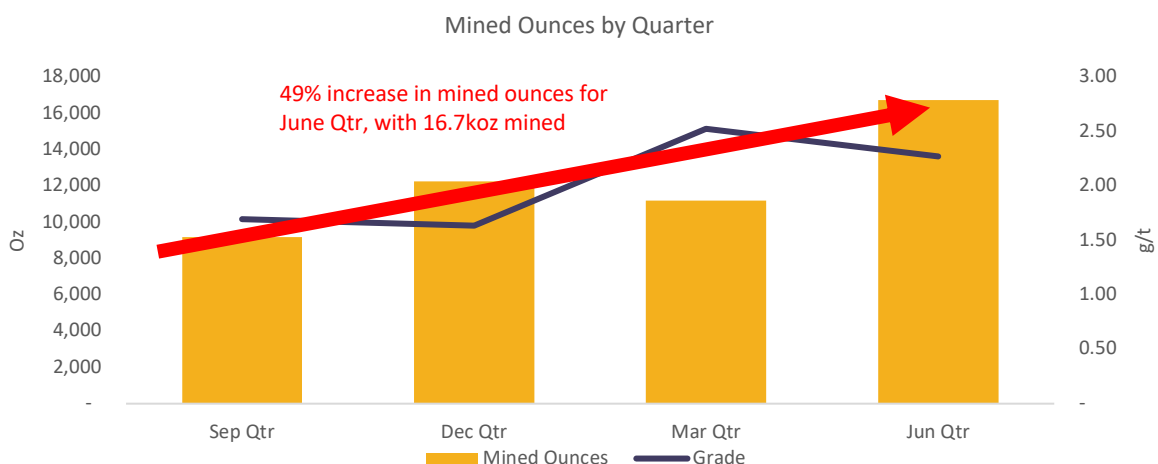

Open Pit Mining

Open pit mining at Missouri continued to perform well with production from both the WMC and Monarch lodes culminating in 16,738 ounces mined in the quarter, a 49% increase on the previous quarter. This resulted in ore stockpiles increasing by more than 6.4koz, with stockpiles of 92.6kt at 2.2g/t at 30 June 2023.

The graph below presents the operational improvements realised at Missouri throughout the year with mined ounces increasing 82% from 9.2koz in Q1 to 16.7koz in Q4. Mined grade increased 42% from 1.7g/t in H1 to 2.4g/t in H2, as a result of improved geological, ore hygiene and operational practices over the financial year.

Mining for the quarter totalled 917,730 BCM for 229,334 tonnes of ore at 2.3g/t from the Missouri pit. Mined ore volumes were higher than the prior quarter on the back of WMC and Monarch lodes now being exposed and mined.

Underground Mining

Development of the Riverina Underground commenced during the quarter. The Riverina portal was established in mid-May and mining has progressed in line with forecasts with total development of 265 metres completed in the six weeks since commencement with 254 metres of this development completed in the declines.

Figure 3 - View of Riverina Portal and access ramp

Capital infrastructure projects were completed supporting the growth of the underground operation. New changerooms were installed to cater for the increasing underground workforce, wash bay facilities were constructed for the mining fleet and existing offices and workshop facilities were upgraded.

A 15.5km pipeline was constructed as part of the integrated dewatering strategy for the existing open pit and underground operations. Primary fans have been purchased, with installation planned next quarter. The primary power station will also be installed next quarter to facilitate the mine expansion.

FY24 Guidance continues DRIVE to 100 Project

FY24 Guidance represents a 40% increase in produced ounces and 25% decrease in AISC/oz, benefiting from reduced stripping ratios at Missouri and the introduction of higher grade Riverina Underground ore into the blend in H2. Key metrics of FY24 guidance include:

Measure	Units	Range
Gold Sold	Oz	67,000 – 73,000
AISC	\$/oz sold	\$2,200 - \$2,400

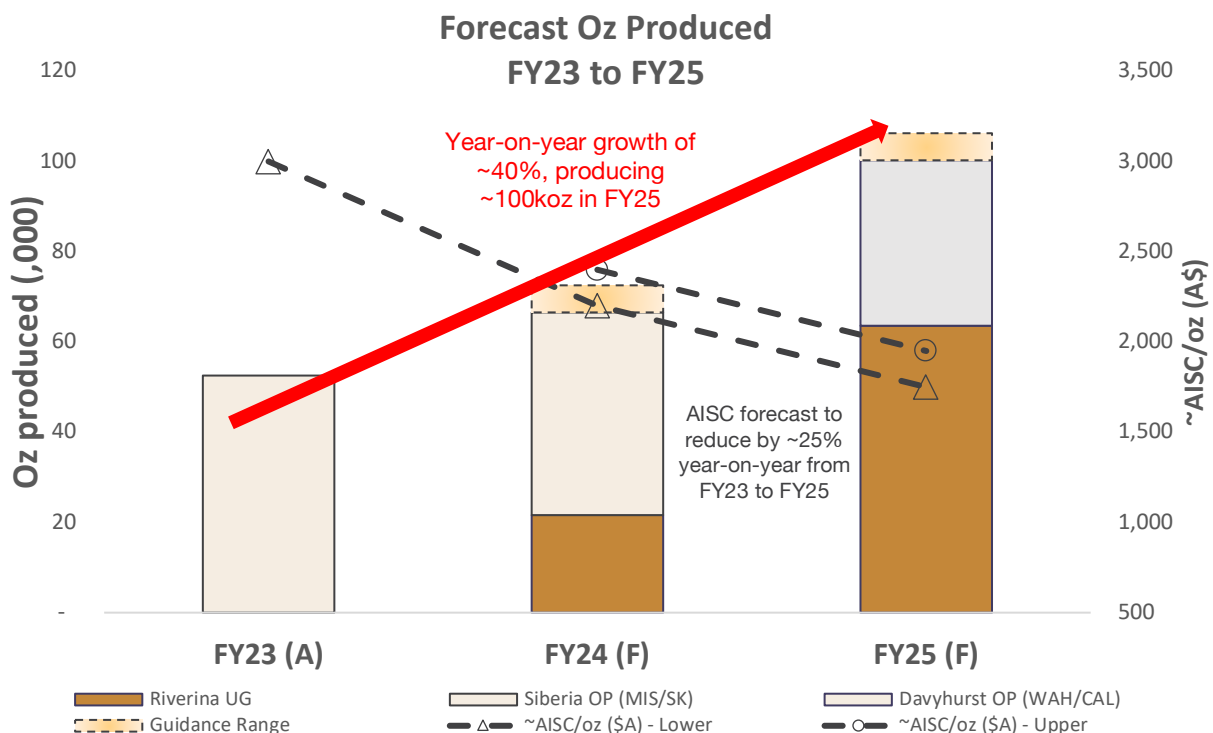

Including:

- Exploration spend of \$9.8M
- Growth capital of \$43M, with key spend including:
 - \$30M on Riverina Underground development;
 - \$5M on growth infrastructure;
 - \$5M on commencement of Waihi Open Pit; and
 - \$3M for crusher upgrades.

The DRIVE to 100

FY24 continues the Company's DRIVE to 100 Project with its key metrics being:

- Commencement of the Riverina Underground mine creates a clear path to a production target above 100koz per annum;
- Riverina Underground, with its higher ore reserve grade of 4.3g/t, has the potential to increase production and lower costs; and
- Ora Banda intends to continue investment into exploration on the highly prospective tenement package to discover additional higher-grade underground mines to support further growth.

Managing Director's Comment

Ora Banda's Managing Director, Luke Creagh, said:

"The June quarter completed what was a big year for Ora Banda. The outstanding achievements made by the team across this period and the whole of FY23 cannot be understated as they have placed the Company in a strong position moving into FY24.

Key highlights for the quarter included the start of the Riverina Underground mine which was discovered, approved, financed and commenced within just 10 months of the Company committing to its high grade, underground strategy. Furthermore, operational improvements at the Missouri open pit increased mine volumes and grade such that the open pit is now set up to produce at less than half the strip ratio of FY23. We also completed the quarter with more than 6.4koz of ore in stockpiles.

After a period of substantial change in FY23, we are excited to have built a strong platform and established team that are committed to delivering our immediate growth strategy to more than 100 thousand ounces in FY25."

Processing

The June quarter performance was impacted by low crushing circuit availability and a bearing failure on the secondary crusher with 256,082 tonnes processed. Ore processed for the quarter was at an average grade of 1.6g/t, which is consistent with the March quarter. Overall head grade is lower than mined grade as the processing blend included low grade oxide material of ~0.8g/t however, planned crusher upgrades in FY24 will increase the fresh rock component to 100% of the mill feed. Gold produced and gold sold was 1% and 3% lower than the March quarter respectively, driven by crusher downtime. As at 30 June 2023, there was 6.4koz of high and medium grade stockpiles sitting on the ROM pads.

Fully paid ordinary shares	1,694,943,693
Unlisted performance rights on issue	152,962,514

During the quarter 267,110,668 shares were issued at \$0.1125 per share to raise total funds of \$30.0 million to develop the Riverina Underground mine.³

During the quarter, 2,040,791 of unlisted options were exercised and the Company issued 2,040,791 fully paid ordinary shares as a result.

Financing

A General Meeting of shareholders held on 8 June 2023 approved all resolutions resulting in:

- Completion of the equity raise of \$30.0 million³ including:
 - Tranche 2 proceeds of \$9.2 million made up of:
 - \$8.0 million from Hawke's Point, the Company's major shareholder; and
 - \$1.2 million from Directors.
- Variation to the terms of the Hawke's Point debt and royalty agreement for an additional payment of \$1.7 million:
 - Whereby the royalty will continue to apply to Ora Banda's tenements (other than the sale tenements referred to below) on the following terms, together with varying the maturity date for the loan:
 - The royalty will increase from 0.9% NSR to 1.0% NSR;
 - The cap on the royalty of 900,000oz of pure gold will be removed, such that the royalty is uncapped; and

- Hawke's Point extending the maturity date for the \$11.0 million loan for a further 9 months from 31 December 2023 to 30 September 2024.
- Sale of non-core Lady Ida tenements for \$12.5 million to Lamerton Pty Ltd and Geoda Pty Ltd for \$10.0 million and Beacon Minerals Ltd for \$2.5 million⁴:
 - The sale of exploration tenements to Beacon Minerals Ltd completed on 21 June 2023.
 - Completion of the sale to Lamerton Pty Ltd and Geoda Pty Ltd is expected to complete around mid-August 2023, when subject to completion the balance of sale proceeds of \$9.0 million will be received.

The proceeds from the transactions above have provided the capital required for the start-up of the Riverina Underground, further drilling to progress resource development and exploration activities and additional working capital to strengthen the balance sheet.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
